URGENT.

Dear Sir,

In continuation of my D.O. letter No.3607/C.E. of the 27th ult., I am desired to state that the proposal for the institution of the Medical Faculty in the University has been approved by Government and orders will issue shortly. I am to request that a draft prospectus for opening the Medical College at the beginning of next month may be submitted to Govt. immediately, together with definite proposals in all other matters requiring the approval or sanction of Government, the intention being that the Medical College should be worked in combination with the Medical School. The Government consider that the combined institution will have to be under the University but as most of the staff will be officers of the State Medical Department, the details of work, so as to ensure harmonious working between the Medical Department and the University have to be examined and

settled, and I am to request that definite recommendations on this behalf may be submitted.

Yours sincerely,
